In June the Board of Directors set aside \$20,000 for our first round of Grant Awards. Our intent is to provide funds to those who would benefit from reproductive treatments but who cannot afford them, with a maximum of \$5,000 per Grant. After reviewing several applications, the Board of Directors voted to award a Grant of \$3,020 to assist a childless couple and help pay for an IVF treatment (in vitro fertilization). We are still accepting applications from others who need financial assistance in order to proceed with fertility treatments.

The Board also decided to have several future events – some for fundraising and others just so that individuals who believe in our cause can meet each other and socialize. We'd like to keep you on our mailing list for some of these events!

Finally, if you or anyone you know wish to help this worthy cause, please send contributions to:
